STATE CLEARINGHOUSE

NEWSLETTER

August 1-15, 2005

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **August 1-15, 2005.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Associate Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003

To: All CEQA Lead Agencies

From: Terry Roberts, Director, State Clearinghouse

Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CDs must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

<u>Documents Received on Monday, August 01, 2005</u>			
2003081133	Silver Lake Reservoir Complex Storage Replacement Project Los Angeles County Department of Water and Power --Los Angeles LADWP proposes to remove Silver Lake and Ivanhoe Reservoirs from direct service to the LADWP water distribution system. Project elements include: a 110 million gallon buried storage reservoir and a 4MW hydroelectric power generation facility at the Headworks Spreading Ground site, regulating station and bypass pipeline around Silver Lake Reservoir, and changed operation of Silver Lake Reservoir Complex.	EIR	09/14/2005
2003111131	Homeland and Romoland Area Master Drainage Plans and Homeland/Romoland Area Drainage Plan Riverside County Flood Control and Water Conservation --Riverside The project consists of revisions of two existing Master Drainage Plans (MDP) by the District, amendment of the existing Area Drainage Plan (ADP), and construction, operation and maintenance of the proposed drainage facilities. Revisions will be made to the current Master Drainage Plan for the Romoland Area (Romoland MDP Revision No. 1), the current Master Drainage Plan for the Homeland Area (Homeland MDP Revision No. 1), and the Homeland/ Romoland Area Drainage Plan (Homeland/ Romoland ADP Amendment No. 1). The DEIR addresses both MDPs in their entirety. The ADP for the Homeland/ Romoland Area is a funding mechanism to help fund construction of the facilities contained in each of the MDPs being addressed.	EIR	09/14/2005
2004012004	Moonshine Dairy Stanislaus County --Stanislaus Use Permit to operate a 2,000 Holstein milk cow (plus support stock) dairy on 647 acres in agricultural area of Stanislaus County approximately 3 miles southeast of Crows Landing.	EIR	09/14/2005
2004081039	South Airfield Improvement Project Los Angeles, City of Los Angeles, City of--Los Angeles The City of Los Angeles proposes to construct a new 75-foot wide Airplane Design Group V center taxiway between Runways 7L-25R and 7R-25L at LAX in order to minimize the potential for runway incursions. This project is identified as the first Phase 1 improvement project under Alternative D of the LAX Master Plan EIS/EIR. The project site is located on LAX property near the Airport's southern boundary. The site is currently paved and in active airfield use for commercial service aircraft operations.	EIR	09/14/2005
2004081159	Santa Barbara County Agricultural Preserve Uniform Rules Update Santa Barbara County --Santa Barbara The Uniform Rules Update project proposes to change several provisions of Santa Barbara County's Uniform Rules in order to 1) bring the Uniform Rules into conformance with recent legislative amendments to the Williamson Act; 2) address discrepancies in the Uniform Rules that were identified in a 2001 audit by the California Department of Conservation (DOC); and 3) increase the clarity and flexibility of the Preserve Program. 2002061047	Esperanza (formerly Legacy) Specific Plan Ontario, City of Ontario--San Bernardino The Esperanza Specific Plan (SP) proposes the development of approximately 1,410 residential dwelling units. The general breakdown of these units consists of 914 single-family detached residential units and 496 multi-family attached residential units. Also, the proposed project provides for a 10 acre school site near the central area of the site, approximately 9 acres dedicated for neighborhood parks, and all major streets will include enhanced parkway landscaping and medians.	NOP	08/30/2005
2003032060	Woodland Gateway Retail Center Woodland, City of Woodland--Yolo The original project identified and analyzed by the Woodland Gateway and Auto Center EIR included an automall (100,000 sf), gas station, six fast food restaurants, and a regional retail center on 55 acres. The revised project, Woodland Gateway Retail Center, now includes the following on the 55 acres: - 49.4 net acres designated for shopping center/regional retail uses. - Maximum of 525,000 square feet of retail uses, including: - Two major retail stores 148,000 and 123,000 square feet in size (plus 10,000 for outdoor garden center), respectively. - Approximately 237,000 sq. ft. of retail consisting of 5 submajors ranging in size from 15,000-28,000 sq. ft., with the remainder general retail. - One fast food drive-up restaurant. - One service station. - 3.5 acres for Interchange improvements - Off-site drainage facilities - Off-site public roadway connecting the project to Maxwell Drive.	NOP	08/30/2005
2005081001	Change of Zone 05-03 and Tentative Subdivision Map (Lotus Ranch), El Centro El Centro, City of --Imperial The proposed Lotus Ranch project consists of 213 acres south of I-8. The proposed project includes 616 single-family residential units and an optional elementary school site. If the school site is not built an additional 70 residential units will be built. The project would require an Annexation, Change of Zone, and Tentative Map.	NOP	08/30/2005

2005081007	Alondra Center North Redevelopment Project La Mirada, City of La Mirada--Los Angeles The La Mirada Redevelopment Agency is proposing the redevelopment of the Alondra Center North Retail Shopping Center into a 4.186-acre residential neighborhood that is currently developed with commercial uses. The proposed project will necessitate the acquisition of the 11 parcels and the demolition of the existing commercial uses. Project implementation includes the redevelopment of the subject property with 44 single-family detached residential dwelling units, which will range in size from 1,774, 2,066, and 2,289 square feet. Each home will be two stories and with attached two-car garages. Each of the dwelling units will also have driveways, which will be supplemented by additional guest parking that will be available on the private driveway on the northern portion of the 4.186-acre site.	NOP	08/30/2005
2005081008	AD & SPR No. 2005-5 Tehachapi, City of Tehachapi--Kern To construct a Travel Center consisting of a truck stop, various retail establishments and a motel.	NOP	08/30/2005

TRI	08/31/2005
1982070607	C-4158; Vasco Road Landfill Alameda County Livermore--Alameda Republic Services, Vasco Road Landfill, which is located approximately four miles northeast of the City of Livermore, underwent an expansion in 2002 into a portion of the existing landfill property called the "back canyon." The back canyon project was permitted via a Streambed Alteration Agreement by CDFG on April 24, 2002, Notification Number R3-2001-0574. The Agreement allowed the development of the back canyon and provided for the construction of two mitigation ponds within the 290-acre conservation easement in Brushy Peak Regional Preserve. While all work is complete in the back canyon, construction of the mitigation ponds is not yet completed. Work started on the mitigation ponds in 2003, however, extended into 2004 and was halted unexpectedly and the Streambed Alteration Agreement formerly issued for this project has expired. This permit is so that the work can be completed as planned and as required by the resource agencies. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0255-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Dave Meyer, Republic Services, Vasco Landfill LLC. 	square feet to 1.9 acres. All lots will be served by community water and sewer facilities. The project includes a request for exception to lot frontage standards for three lots, and exception to road width standards to allow for flag lot configuration. The project was originally approved in 1997 as FMS-04-95, and re-approved as FMS-99-06 in 2000. A request for extension was submitted prior to project expiration. However, the change of agents, and the engineering analysis and design involved in mitigating for storm water runoff, resulted in a time delay in taking the exception to the Planning Commission. To mitigate storm water runoff consistent with Plan policies, the applicant proposes to convert one or more of the residential lots for construction of a storm water detention basin. The project will expire March 28, 2006.		
2001102139	Pacific Gas and Electric Company's Richmond-to-Pittsburg Pipeline Divestiture Public Utilities Commission Richmond, Pittsburg, Hercules, Martinez--Contra Costa PG&E is seeking authority through an 851 application (A0005035) to the CA Public Utilities Commission to sell its Richmond to Pittsburg Fuel Oil Pipeline to a new owner, the San Pablo Bay Pipeline Company (SPBPC). In a separate application (A0012008) to the CPUC, SPBPC is seeking authority under Sections 216 and 228 of the PUC Code to own and operate the pipeline as a common carrier pipeline corporation.	NOD	
2002041129	Canyon Sewer Cleaning Program/Long-Term Canyon Sewer Maintenance Program San Diego, City of --San Diego The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2004-0413-R5 pursuant to Section 1602 of the Fish and Game Code to the project applicant, City of San Diego, Metropolitan Wastewater Department. The applicant proposes to alter the stream to create approximately 3.8 acres of wetlands and riparian scrub on City-owned lands within Los Penasquitos Canyon Preserve, including 3.2 acres of southern willow scrub and 0.2 acres of freshwater marsh under the joint jurisdiction of the U.S. Army Corps of Engineers and the Department, and 0.4 acres of sycamore/cottonwood woodland under the jurisdiction of the Department only. The project will create wetlands within an area of the Los Penasquitos Creek floodplain tht has been historically separated from the stream channel by placement of earthen berms on the north channel bank and in-filling for crop farming. The plan includes the removal of a portion of an earthen berm present onsite, removal of all non-native plant species, grading to lower topographic elevations, construction of a park service path that will connect to an existing public trail, installation of temporary irrigation, installation of native wetland container plants and seed, and installation of temporary irrigation, installation of native wetland container plants and seed, and installation of a native upland buffer. The project is located on the north side of the Los Penasquitos stream channel, approximately 0.75 miles northeast of the intersection of I-805 and Sorrento Valley Road, and approximately 1,000 feet northeast of the junction of Lopez Canyon Creek with Los Penasquitos Canyon Creek, within the Los Penasquitos Canyon Preserve, in the City of San Diego, San Diego County. 2003042133	<p>Ranch View Terrace University of California, Santa Cruz Santa Cruz--Santa Cruz</p> <p>The University is adopting minor changes to the Ranch View Terrace Faculty and Staff Housing (RVT) Project, previously approved in June 2004. The Regents of the University of California (Regents) certified the Ranch View Terrace Faculty and Staff Housing Project EIR (RVT EIR) in June 2004. The project analyzed in the RVT EIR included construction of 80 detached single-family residences, a small community center, four rental apartments, associated circulation facilities, utilities and amenities, and relocation of the RVT EIR, the project has been slightly revised to include construction of up to 84 detached single-family residences and elimination of the four rental apartments and community center. The revised RVT project will also be built in two or more phases. Phase 1 consists of construction, on the western half of the project site, of 45 single-family residences and an adjacent landscaped open area with a small children's playground. Phase I also includes construction of the project's primary road system and infrastructure for the entire development area, including storm water drainage management systems. Future phases include construction of up to 39 additional residences on the remainder of the project site. The RVT project is not expected to create any new or increased significant environmental impacts outside of the scope of the analyses already contained in the RVT EIR.</p>	NOD

	properties within the CBD Project Area and certain properties within Project Area II for 12 years. Amendment 2005, in and of itself, is not a development project or land use plan and will not have a physical impact on the existing environment of the Consolidated Project Area. This action was taken in accordance with the provisions of the California Community Redevelopment Law, Health and Safety Code Section 33000, et seq.		
2005022047	Lot Line Adjustment and Parcel Map Residential Subdivision Resulting in 3 Parcels Humboldt County Community Development Services --Humboldt A lot line adjustment between two parcels from a previous parcel map and then a minor subdivision of one of the resulting parcels into two parcels. The parcels have, or will be developed with, public water and on-site sewage disposal systems. A Special Permit is required for a modification to the minimum lot size per §314-99, HCC. Another exception to the road width standard is requested. The project will result in three parcels ranging in size from 3.08-6.61 acres. The smaller parcel is developed with two residences and a shed.	NOD	
2005032071	Zoning Text Amendment RZ-3-04 Brisbane, City of Brisbane--San Mateo Amendment of Brisbane Municipal Code Sections 17.15.030 (Conditional Uses) and 17.15.040 (Development Regulations) to allow "organics reload operations" within an existing building subject to Use Permit approval without the requirement for a Specific Plan. "Organics reload operations" would be defined as "a facility in which organic waste materials, such as lawn trimmings and food scraps, are reloaded from collection trucks into long-haul trucks to be sent to a composting facility elsewhere within 48 hours;" no significant effects.	NOD	
2005051064	City of Big Bear Lake Department of Water and Power Cherokee Production Well Development Program Big Bear Lake, City of --San Bernardino The proposed well has been drilled and tested and will be converted to a production well that is expected to yield 60 gpm but to be active 56% of the time such that it would be equivalent to yielding 34 gpm on average. The proposed well would thus yield 54.8 acre-feet/year. The development of the well will take approximately 90 days, of which 6 to 10 days would include 24 hour drilling activity for casing and gravel pack installation and well performance testing.	NOD	
2005052076	Jeanine Martin Parcel Map Subdivision Humboldt County Community Development Services Trinidad--Humboldt A Parcel Map Subdivision of an approximately 40 acre parcel into three residential parcels and a remainder. The proposed parcels will range in size from 5.2 acres to 14 acres. A Special Permit is required for the subdivision of a parcel located within the Alquist-Priolo Fault Hazard Area. An existing coastal access trail is identified on the property pursuant to Section 3.50B.5 of the Trinidad Area Plan and will be offered to the County through an Irrevocable Offer to Dedicate. The SP also includes Major Vegetation Removal and Design Future development on proposed Parcel 1. The parcel is in the Coastal Commission's retained permit jurisdiction. A Coastal Development Permit from the State will be required. All development will be served by individual water and sewage disposal systems.	NOD

2005052120	Railroad Avenue Bridge Replacement Project Willits, City of Willits--Mendocino The City of Willits is proposing to replace an existing steel flatcar bridge which is 9 feet wide and 60 feet long, along with its concrete piers, with a 3-span, 67-foot long, 26-foot wide reinforced concrete slab bridge. Fourteen 16-inch octagonal concrete piles will be driven below the potential scour line of the streambed of Baechtel Creek to support the structure. The banks of Baechtel Creek will be cleared and graded and a layer of rock slope protection (RSP) will be placed for distance of 50 feet along the banks. During construction, a detour around the bridge will be provided on the creek bed just downstream of the bridge.	NOD	
2005061011	New Office and Shop Buildings, Golden Hills Community Services District Golden Hills Community Services District Tehachapi--Kern The project consists of the construction and operation of new office and shop buildings by Golden Hills Community Services District. It entails 14,000 square feet of structures on a 11.21-acre parcel near the future intersection of Red Apple Avenue and Reeves Street southeast of the City of Tehachapi in Kern County. The County of Kern must approve a conditional use permit to allow said construction and operation, and is a responsible agency under CEQA.	NOD	
2005062039	Retail and Commercial Business Building with a Notice of Merger and Inland Design Review Humboldt County Community Development Services --Humboldt A Conditional Use Permit for the construction and operation of an approximately 26,450 square foot business center on an approximately 3 acre parcel (after lot merger). Proposed uses include a mix of retail sales and service as well as manufacturing and office space. A Notice of Merger is also included in the project to accommodate the merger of two parcels of approximately 50,980 square feet and 77,575 square feet. Inland Design Review is required. Water and sewer services will be provided by the Redway Community Services District.	NOD	
2005062047	Caltrans Bracut Maintenance Station Water Supply Line Caltrans #1 --Humboldt Install a water supply line for a fire sprinkler system in the Caltrans Bracut Maintenance Station.	NOD	
2005089001	Huggins Residence 59 Vicente Berkeley, City of Berkeley--Alameda Construction of a 4,671 square-foot two-story single-family residence and a 460 square-foot garage. The project is located at 59 Vicente Road, in the City of Berkeley in Alameda County. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0198-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Robert Huggins.	NOD

2005088028	44th Avenue Tentative Parcel Map Sacramento County Dept. of Environmental Review --Sacramento A Tentative Parcel Map to divide a 0.34-acre parcel into 2 lots on property zoned RD-10. The parcel map will create one undeveloped parcel, while the other parcel will encompass an existing duplex.	NOE	
2005088029	4949 Date Avenue Apartments Development Plan Review and Exception Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of: 1. A Development Land Review to allow construction of a 4-unit apartment complex on 0.24 +/- acre in the RD-30 zone. 2. An Exception to deviate from the following multiple family development standards: a. Reduce the required 25-foot setback from the public street to 18 +/- feet for a parking space (Section 305-12). b. Reduce the 100-foot setback required for two story structures abutting RD-10 zoned property (north) to 30 +/- feet (Section 305-12.1). c. Reduce the required 25-foot setback required for internal access drives and parking spaces adjacent to land zoned RD-10 (north) to 8 +/- feet and 0 feet, respectively (Section 305-14 (b)). d. Reduce the open space required around two-story structures from 15 feet to 5 +/- feet along the south property lined and to 10 +/- feet along the west property line (Section 305-14 (b)). e. Reduce the required 5-foot wide perimeter landscape planter, with trees 30 feet on-center, to 0 feet for portions of the west and north property lines (Section 305-17 (b)).	NOE	
2005088030	Lincoln Center East Tentative Subdivision Map, Variance and Special Review of Parking Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of the following: 1. A Tentative Subdivision Map to divide 2.3 +/- acres into five lots on property zoned BP and RD-30. 2. A Variance to deviate from the required minimum 60-foot public street frontage in the BP zone. 3. A Special Review of Parking to allow shared parking between the proposed lots. Note: The proposed land division, Variance and Special Review of Parking will not result in any development occurring on the property that is not otherwise permitted in the BP and RD-30 zones. There are 9 oak trees on the property ranging in size from 7 to 23 inches in diameter, all of which will be saved as shown on the tentative map. The existing oak trees are protected by the County Tree Preservation Ordinance.	NOE

2005084002	<p>Los Angeles River Estuary Maintenance Dredging Project U.S. Army Corps of Engineers Long Beach--Los Angeles The Corps proposes to dredge the entire 1,500-meter navigation channel within the LARE to allow for unobstructed passage of vessels in and out of Queen's Way Marina. Approximately 500,000 cubic meters of sediment needs to be dredged to restore a depth of 6.0 meters [20 feet MLLW (Mean Lower Low Water)]. The channel width is 76 meters (250 ft.).</p> <p>The proposed project includes the removal of approximately 500,000 cubic meters of material from the mouth of the LARE using either a hopper dredge, cutterhead/pipeline, and/or a clamshell/barge. Placement will consist of dredging the contaminated material into the LA River Borrow pit and covering it with clean dredge material. The excess clean material will be placed at LA-2. Dredging and placement operations are expected to commence when funding is available. Sediment has been tested in accordance with applicable regulations and found to not be compatible with beach placement. The proposed project is required to restore and ensure safe navigation within the federal channel. Inaction will prevent Catalina Express from being able to operate out of the Queens Way Marina. Catalina Express runs 8 trips daily to and from Catalina, for a total number of 16 transits per day.</p>	EA	08/31/2005
2004061107	<p>River Terrace Residential Development Lompoc, City of Lompoc--Santa Barbara The project applicant, Coastal Vision, Inc. is proposing to construct 308 residential units, 17,666 square feet of commercial floor area, a 9,110 square foot community recreation center, a private park, and additional recreational amenities on the project site. Of the 308 units, 62 units are single-family patio homes on individual lots with zero lot lines, 65 units are townhomes, and 181 units are attached condominium units.</p>	FIN

	250ft (36,750 square feet/.84 acres), is presently designated for residential uses. The project includes renovating two existing residential structures to be used by the day care. A modular classroom will also be placed on the site to be used for additional classroom space. The project is within the McCall Avenue Specific Plan area, and meets the regulations of the Plan. The Conditional Use Permit application was submitted and has been approved in compliance with the Municipal Code (Section 11-16-11).		
2005081012	Continuous Feed Chemical Treatment Facility Project Orange County Sanitation District Buena Park--Orange The proposed project would design, construct, and operate a continuous chemical feed system that would control sulfides, potential odors, and corrosion in the Miller-Holder and Knott trunk sewers.	Neg	08/31/2005
2005081013	City of Madera Wastewater Treatment Plant Expansion Madera, City of Madera--Madera The main purpose of the proposed project is to expand the City of Madera Wastewater Treatment Plant (WWTP) from an existing permitted treatment capacity of 7.0 million gallons per day (mgd) to 10.1 mgd. This expansion will accommodate the City's projected growth for approximately the next 20 years. The current WWTP consists of a biological secondary treatment process comprised of headworks, primary clarification, biofiltration, secondary clarification, sludge digestion, sludge drying and effluent reclamation. Disinfection treatment is currently not practiced or required at the WWTP. Effluent from the WWTP is discharged to 14 evaporation-percolation ponds located within the facility boundary where most of the wastewater percolates into the underlying groundwater body. Each of the ponds comprises 20 acres and is approximately five feet deep. The WWTP uses approximately six of the ponds at one time for percolation with the remaining ponds leased to a farmer for growing crops for non-human consumption (primarily corn or wheat). Wastewater effluent is used to irrigate the crops via surface irrigation. A sludge centrifuge is currently in service. The dewatered sludge is hauled off-site for final disposal.	Neg	08/31/2005

2005088038	<p>Resolution of Application Requesting the Local Agency Formation Commission to Take Proceedings for the Formation of a Community Services District for the Desali Monterey, City of Monterey--Monterey</p> <p>The City of Monterey proposes to form a Community Services District to own and operate a desalination plant and related water distribution infrastructure to provide water for the mixed-use Ocean View Plaza project. The District will serve as the purveyor of water to the commercial tenants and residents of the Ocean View Plaza project.</p>	NOE	
2005088039	<p>Vierra Flood Protection and Environmental Enhancement Project Water Resources, Department of, Division of Dams Modesto--Stanislaus</p> <p>This project will restore and enhance approximately 311 acres of riparian vegetation and create approximately 200 acres of seasonal wetlands on the Vierra portion of the San Joaquin River National Wildlife Refuge. Riparian restoration will include planting native woody species, weed control, and irrigation during a three-year establishment period. Wetlands will be created in topographically low areas, using some minor land grading to establish overall drainage that minimizes fish entrapment during flood years. The project includes replacing two irrigation pumps with new fish-screened versions of similar capacity for irrigating riparian vegetation and to supply water to the seasonal wetlands during non-flood years.</p>	NOE	
2005088040	<p>Removal Action Workplan for the Campbell Avenue Site Toxic Substances Control, Department of San Jose--Santa Clara</p> <p>The project is the approval of a Removal Action Workplan (RAW) for the Campbell Avenue Site. The project involves the injection of Hydrogen Release Compound (HRC) and HRC Primer into the subsurface to treat groundwater contaminated with volatile organic compounds (VOCs), primarily, tetrachloroethylene (PCE), trichloroethylene (TCE), vinyl chloride (VC) and 1,2,4-trichlorobenzenes (1,2,4-TCB). PCE was detected at the highest concentration of 450 micrograms/liter (ug/l).</p> <p>This removal action will reduce or eliminate a contaminated area of groundwater that poses a threat to human health. If monitoring data indicates the treatment with HRC is not effective, a Bio-Inoculum bacterium will be added to aid in the rapid and complete degradation of chlorinated VOCs. And if the treatment is found to be not effective, a contingency plan of groundwater pumping (at one day a month) for six months, and offsite disposal of extracted groundwater will be conducted.</p> <p>Polychlorinated biphenyls (PCBs) were also detected at 21.5 feet below the ground surface with the highest concentration at 1,300 mg/kg. At this depth, PCB exposure to the public is unlikely; restrictions will be imposed which will prevent digging below 15 feet in the area where the PCBs are without DTSC approval. There will be no restrictions on surface land use.</p> <p>The cleanup objectives for groundwater are to protect public health and the environment by reducing the VOC concentrations in ground water to maximum contaminant levels (MCLs) or background concentrations. The MCL for each respective contaminant is as follows: PCE (5 ug/l), TCE (5 ug/l), VC (0.5 ug/l) and TCB (70 ug/l). MCLs are enforceable regulatory standards under the Safe Drinking Water Act and must be met by all public drinking water systems to which they</p>	NOE

apply. A screening level risk evaluation for VOC vapor in groundwater was conducted since MCLs do not consider vapor intrusion pathway. The findings indicate that MCLs are more stringent than the developed risk-based concentrations target (RBTCs) for the VOC vapor in groundwater. Therefore, the remedial action objectives of cleaning the groundwater contamination to MCL will address VOC vapor in groundwater.

2005042095	California Department of Fish & Game - Year 2005 - Fisheries Restoration Grant Program Projects Fish & Game #2 --Del Norte The project proposes the upgrade of 25 stream crossings, installation of approximately 22 ditch relief culverts, construction of approximately five critical dips, construction of one armored ford, and out sloping of approximately 1,800 feet of bank on Larabee Creek.	NOD	
2005051052	Wilshire School of Continuing Education Center Rehabilitation Project North Orange County Community College District Fullerton--Orange An environmental study known as an Initial Study-Mitigated Negative Declaration has been completed assessing the facilities improvement project proposed at the Wilshire School of Continuing Education, at the Fullerton College campus. The project consists of three basic components: rehabilitation of two classroom buildings (Buildings 100 and 200) that have been deemed historic buildings; upgrading of antiquated utility systems serving the School; and construction of a 1-story adjoining buildings (Building 200) by means of an unroofed, removable deck, and would be accorded a sympathetic architectural design treatment. Only one potential environmental issue was identified: the possible effect of the project on School's historic buildings. However, this potential effect will be reduced to a less than significant level through the implementation of the mitigation measures presented in the Study. The mitigation measures consist of the preparation of a Historic Structures Report (HSR) and input on the HSR from the city of Fullerton and Fullerton Heritage. After concurrence from Fullerton Heritage and the City of Fullerton, the HSR findings/recommendations would be reflected in the project's architectural plans and construction documents in compliance with the Mitigation Monitoring and Reporting Plan. Proposed work would include excavation of the bed and bank of the stream corridor and placement of fabric and rock slope protection (RSP). Minor grading of Caltrans ROW for equipment access to work site will be completed. Site 1: RSP will be 34kg-450kg rock placed in the area as described in construction plans provided. Site 2: RSP will be 11kg-220kg light rock placed in the added to the eastside of the culvert to protect existing piles.	NOE	
2005088043	USDI, BOR - Buckhorn Dam Toe Drain Outfall Excavation Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Trinity Project involves the removal of 2-4 cubic yards of decomposed granite sediment. The accumulated sediments at the two toe drain outfalls, located immediately adjacent to the Buckhorn Dam Outlet works wingwalls, are preventing efficient discharge of water. This blockage compromises the safety of the dam. This one day project involves excavation by a rubber-tired backhoe and transport of excavated material to a spoil area. The spoil area is located in a naturally occurring shallow depression.	NOE	
2005088044	Lake Clementine Boat Dock Replacement Fish & Game #2 --Placer Replace the existing boat boarding dock at Lake Clementine that was damaged by high flows in 2005. The work will all occur on previously disturbed ground.	NOE	
2005088045	Stormwater Improvement Caltrans #2 --Siskiyou Using only state funds Caltrans will improve the stormwater drainage adjacent to Interstate 5 on both sides of the freeway. Water is seeping from the eastside bank and pooling at the toe of the slope in sediment filled roadside ditch. Water from the ditch has seeped under I-5 undermining the stability of the pavement. In an effort to reduce the escape of the slope and aid drainage from the roadside ditch at the toe Caltrans plans to: Use equipment to clear debris and vegetation from the concrete-lined drainage ditch at the top of the of the eastside cut and repair cracks in the concrete.	NOE	
2005088046	Safety Project Shasta 44 Caltrans #2 --Shasta A Safety project on State Route 44 near Ponderosa Way, about 2.5 miles west of Shingletown, California. Eight-foot wide paved shoulders will be added to each side of the highway and the horizontal and vertical alignments will be brought up to current highway standards.	NOE

2005088053	Central California Women's Facility, Madera County Corrections, Department of Chowchilla--Madera The California Department of Corrections, Joint Venture Program is looking to lease an additional 4,000 square feet of space at the Central California Women's Facility.	NOE	
2005088054	Office of Substance Abuse Programs (OSAP) Corrections, Department of Fresno--Fresno The California Department of Corrections, Office of Substance Abuse Program proposes to lease approximately 2100 square feet of office space for an OSAP Administrative office in Fresno, CA.	NOE	
2005088056	Borrego Springs Chamber of Commerce Entrance Signs (05/06-CD-1) Parks and Recreation, Department of --San Diego The project consists of the placement of three community entrance signs on State Parks property along three entrance roads to the community of Borrego Springs that pass through Anza-Borrego Desert State Park. Past community entrance signs have been on private lands adjacent to the park. However, due to changes in private ownership these signs have had to be removed. Sign placement on State Parks land is proposed to provide long-term stability in sign location. The three signs will be composed of rustic wood and mounted on shortened wooden telephone poles. The signs will say "Welcome to Borrego Springs," and will not contain any commercial signage. A changeable sign space will also be placed on each sign to announce special events in the community.	NOE	
2005088057	Lucky 5 Trails Establishment (05/06-CD-2) Parks and Recreation, Department of --San Diego The project consists of the establishment of six trail segments within the recently acquired Lucky 5 Ranch portion of Anza-Borrego Desert State Park. Four of the six trails will follow existing dirt roads, with some modifications to stabilize trail surfaces, reduce erosion problems, or to avoid sensitive biological or cultural resources. All trails will be accessible from the day use parking lot/trailhead located along County Road S-1 (Sunrise Highway). Two of the trail segments will link with the existing Pacific Crest National Scenic Trail. One trail segment will link with the existing trail system in adjacent Cuyamaca Rancho State Park to the south. All trails would avoid significant impacts to sensitive biological and cultural resources. This project is related to a previously approved project (SCH# 2004098428, Lucky 5 Ranch Public Use Improvements - Day Use Only).	NOE	
2005088058	Office Consolidation and Relocation - DGS - Construction Services Branch General Services, Department of Rancho Cucamonga--San Bernardino The Department of General Services intends to enter into a lease for approximately 8,200 net usable square feet of office space at 9439 Archibald Avenue, Suite 108, in Rancho Cucamonga to accommodate the consolidation and relocation of the San Diego and the Los Angeles offices (Areas III and IV) of Construction Services Branch. The consolidation/relocation will allow cost effective service to the southern California region with the office to be housed in appropriate space at a location that is well serviced by public transit and other services. 2005082013	Woodcreek North Well Project Roseville, City of Roseville--Placer The proposed project consists of the construction of the Woodcreek North Well and Pump Station. The well and pump station site will be approximately 50 feet by 100 feet and will be used to back-up existing water supplies during critically dry periods. Well construction is scheduled for late summer/early fall 2005. The well should be complete and ready for operation in the summer of 2007. The Woodcreek North Well will also be used to gather information on whether the groundwater conditions in the vicinity may be suitable for future expansion/development of an Aquifer and Storage Recovery (ASR) program, as considered in the 1999 Water Forum Proposal EIR. This would involve testing the well for both water injection and extraction, and monitoring volumes, water quality, and groundwater level changes during the test period. In addition, monitoring wells may be required by the Central Valley Regional Water Quality Control Board (Regional Board). If required, additional and subsequent environmental analysis may be required as the details of the size, location, and number of monitoring wells has not yet been determined.	MND	09/02/2005

<u>Documents Received on Friday, August 05, 2005</u>			
	recreation paseo system. Overall, The Resort Specific Plan includes approximately 58.39 acres of high density residential development with a total of 646 dwelling units and approximately 72.72 acres of very high density residential development with a total of 1,104 dwelling units. If the elementary school is not developed within the project site, an additional 160 dwelling units of very high density residential development would be added to the project. Change of Zone No. 6848 proposes to change the site zoning from A-2-10 (Heavy Agriculture - 10 acre minimum) and I-P (Industrial Park) to SP (Specific Plan). Parcel Map No. 31645 proposes to divide the approximately 195.77 acre project site into 16 parcels. Agricultural Preserve Case No. 919 includes applications to cancel the Williamson Act contracts affecting approximately 95.9 acres and to diminish the size of the Mira Loma Agricultural Preserve No. 1 by removing said 95.9 acres.		
2004071092	Chicago Grade Landfill Expansion Development Plan DRC 2003-00026 San Luis Obispo County Planning Atascadero--San Luis Obispo The proposed project involves an expansion of the current disposal area of the Chicago Grade Landfill by an additional 44.3 acres into the eastern portion of the subject property of landfill site which will increase the "waste footprint" to a total of 83.74 acres. The proposed landfill expansion will extend the estimated lifespan of the facility from the year 2016, as currently permitted, to the year 2045, an extension of 29 years. No change in the daily or annual intake of solid waste or vehicle limits is proposed.	EIR	09/19/2005
2004111060	Samsung Master Plan La Habra, City of La Habra--Orange Phase 2 Church (66,676 sq. ft.) Phase 3 Church (57,066 sq. ft.) and Commercial (56,425 sq. ft.)	EIR	09/19/2005
2005042152	Proposed Land Acquisition and Facilities Construction for Esparto High School Esparto Unified School District --Yolo The proposed project will include the acquisition and construction of a high school, which includes academic and school office buildings, playing fields, a gymnasium, a student union, tennis courts, basketball courts, parking for both students and faculty, a bus parking area, an outdoor instructional amphitheatre, and agricultural sciences area. The first phase of the project would include the construction of facilities to support a student population of 600. Based on the School Facilities Needs Analysis (Government Financial Strategies Inc., 2004), a 600-student campus is projected to support the community for the next 10 years. Title 5, California Code of Regulations, states that education facilities planned by school districts shall be master-planned to provide for maximum site enrollment. EUSD determined that a single site campus would be better for the student population and allow expansion of student services as dictated by growth in the school district over the next 40 to 50 years. In support of the EUSD's long-term planning goals and to avoid the need for an additional high school in the future, the proposed project site could accommodate future expansion of buildings and other facilities capable of supporting up to 2,000 students. Construction of additional facilities will be implemented only on an as-needed basis, in response to community growth. Therefore, the document addresses, on a programmatic EIR level, the impacts of acquisition and construction of a high school capable of accommodating up to 2,000 students, and analyzes on a project-specific level, the impacts associated with constructing facilities to support an initial phase of 600 students. Subsequent	EIR	09/19/2005

<u>Documents Received on Friday, August 05, 2005</u>			
	phases include an interim phase of 1,000 students and a potential maximum build-out phase of 2,000 students. Current projections indicate that a 1,000-student campus will be needed in approximately 25 years. The proposed site is approximately 64.55 acres. The site plan for the 600-student campus and the 1,000-student campus are similar in layout. Therefore, the 1,000-student layout will serve as the model for the physical impacts of the project for approximately 25 years. The 1,000-student campus is designed with 30.3 acres of open space, including the student agricultural program, and 34.25 acres of school buildings, parking, bus-parking facility, gymnasium, courts, football stadium, and baseball diamond.		
2004072042	Eureka Redevelopment EIR Eureka, City of Eureka--Humboldt The proposed project involves amending and restating the Redevelopment Plans (the "Amended Plans") for the Eureka Tomorrow, Eureka Century III NDP Phase I, and Eureka Century III NDP Phase II Redevelopment Projects (the "Project Areas"). tp (1) provide for the fiscal merger of these three Redevelopment Projects; (2) update the plans to contain the land uses in the Eureka General Plan; (3) revise the Plan tax increment limits to correct a clerical error in the original adoption; (4) take advantage of the extensions of time offered by SB 1045 and SB 1096 relating to payments to the Educational Revenue Argumentation Fund; and (5) the amendment of restatement of the three Existing Redevelopment Plans to attain conformance with the current requirements of the Community Redevelopment Law and to reflect current redevelopment practice.	FIN	
2004081061	Sierra Bella Specific Plan/Annexation/TTM32023 Corona, City of Corona--Riverside The proposed project consists of the following related actions: (1) Sierra Bella Specific Plan with 249 residential units on 319 acres, 2.6 acres of parkland on adjacent offsite land; and 144 acres of open space. Residential lots range from 9,000 sf (LDR-1=175 lots) to 14,000 sf (LDR-2=74 lots); (2) annexation of the specific plan into the City of Corona; (3) General Plan Amendment from RR-1 to RR-2 so land uses will be consistent with City categories; and (4) Tentative Tract Map 32023. 2005081030	Camarillo Hills Drain Improvement Project Ventura County Watershed Protection District Camarillo--Ventura The proposed project consists of flood control improvements to an approximately 3,800 foot section of the existing Camarillo Hills Drain. The project would occur entirely within the existing drain right-of-way. The project proposes to modify the existing concrete trapezoidal channel to a reinforced concrete rectangular open channel and to rebuild the reinforced concrete box culverts at Rosewood Avenue, Lantana Street, and Carmen Drive to prevent flooding and provide 100-year flood protection for adjacent homes and businesses. Other accessory structure improvements include fencing, a V-ditch, concrete riprap removal, and access road improvements.	Neg	09/06/2005

2004121039	<p>Cienega Road Bridge Replacement Project San Benito County Hollister--San Benito</p> <p>The San Benito County Department of Public Works proposes to replace the Cienega Road Bridge at Pescadero Creek. The project objective is to improve the operation of the existing functionally obsolete and structurally deficient single-lane bridge. The existing bridge is constructed of steel channel girders and is 4.5 meters (m)/ 14.8 feet (ft) wide and 6.7 m (22 ft) long. The abutments consist of steel piles supporting a steel cap. The piles also hold back steel cattle guard panels, which are used to retain the approach fills.</p> <p>The proposed project consists of replacing the existing bridge with a cast-in-place reinforced concrete slab bridge. The new bridge will be 10.0 m (32.83 ft) wide and 25.3 m (83 ft) long, with two 3.66 m (12 ft) lanes and 0.9 m (3 ft) shoulders. Concrete bridge railings will be attached directly to the bridge deck. The proposed bridge will be a two-span structure with a pier near the middle of the creek. The bridge will be supported on cast-in-steel-shell (CISS) concrete piles with concrete pile extensions at the bents, and driven steel HP piles at the abutment supports. The 610 millimeter (mm)/24 inch (in) diameter CISS concrete piles will have 400 mm (16 in) diameter pile extensions above the CISS cutoff elevation, which will be approximately 1 m (3 ft) below the creek bottom. The abutments will consist of fixed end diaphragm type abutments supported on a single row of steel H piles.</p> <p>The proposed roadway alignment closely matches the existing alignment. The proposed bridge will be slightly more than twice as wide as the existing bridge. The proposed roadway centerline will be just downstream (east) of the existing bridge deck, so that the proposed southbound lane covers the existing bridge footprint.</p> <p>The north roadway approach will be approximately 113.5 m (372 ft) long while the south approach will be approximately 107.7 m (353 ft) long. The roadway approach fills along the proposed roadway alignment will remain within the proposed 18.3 m (60 ft) right-of-way limits except for in a few areas near the creek. The County intends to acquire permanent maintenance easements for these small areas. The permanent easements will extend approximately 1.5 m (5 ft) beyond the toe of fill lines, where they are outside the proposed right-of-way. The largest fill area beyond the proposed right-of-way limit occurs just northwest of the bridge.</p>	NOD

2005088066	Eradication of Arundo donax from Lower Piru Creek United Water Conservation District --Ventura United Water Conservation District (UWCD) proposes to eradicate Arundo donax from the lower reaches of Piru Creek (below the Santa Felicia Dam). Arundo is present on the east bank of the creek between the Center Road Bridge and Hwy. 126. Multiple stands of Arundo have been observed, all of which are in mature stages, indicating several years of growth. If left unabated, this Arundo could disperse throughout the creek, and quickly become an unmanageable problem. UWCD is proposing to eradicate the Arundo from Piru Creek while it is still feasible to do so. Following eradication, UWCD will provide maintenance and monitoring of the infested area for a minimum of 5 years.	NOE

2005081046	Planning Area 1 Orchard Hills Zone 5 Reservoir Project Irvine Ranch Water District Irvine--Orange The scope of this project is to construct the Zone 5 Orchard Hills Reservoir, access road, and connecting pipelines. The proposed reservoir will be a 1.0 MG prestressed concrete tank and will serve the Zone 5 domestic water system.	Neg	09/06/2005
2005082023	Michael & Brandy Peters Tentative Parcel Map TPM-05-08 Siskiyou County Planning Department Mount Shasta--Siskiyou The applicants request Tentative Parcel Map approval to divide a 5 acre parcel into two 2.5 acre parcels. The property is located within the R-R-B-1 (Rural Residential Agricultural, 1 acre minimum parcel size) zoning district. The division would create one additional building site which would accommodate a single-family dwelling with agricultural uses.	Neg	09/06/2005
2005082025	Amendment to Municipal Code Section 13.12.150 and Industrial System Discharge Permit Lodi, City of Lodi--San Joaquin The project entails an Amendment to the Municipal Code Section 13.12.150 for sewer service outside of City limits and an Industrial System Discharge Permit for the Van Ruiten Family Winery Industrial Waste connection.	Neg	09/06/2005
2005082029	Brookside Gardens Cloverdale, City of Cloverdale--Sonoma The applicants are requesting approval of a Preliminary and Precise Development Plan, a General Plan Amendment to change the designation from Service Commercial to Medium-High Density Residential, a rezone to Planned Unit Development, Design Review, and Tentative Subdivision Map to create an 11 unit, small lot, attached single-family residential subdivision. Two of the units will be designated as affordable to a low-income buyer. None of the homes will back up to the adjacent creek. There will be small encroachments of parts of the proposed private driveway into the 30-foot creek setback. However, the driveway will be constructed of pervious pavement to allow storm water recharge. A curb and the slope of the drive will direct the water away from direct flow into the creek. The creek setback will be donated to the City of Cloverdale to be added to the City park system.	Neg	09/06/2005
2005082030	Peter Halt and Rebecca Dyson Zone Change Z-06-03 Siskiyou County Planning Department Mount Shasta--Siskiyou The applicant requests approval for a Zone Change on a 1.0 acre parcel from C-U (Neighborhood Commercial) to C-C (Town Center Commercial) uses.	Neg	09/06/2005

	development program at the Vista Hills site at 2465 Barnard Street in the City of Richmond.		
	Upon completion of the proposed site upgrades, WCCUSD would operate the Vista Independent High School, the Transition Program and staff development/training on the site. Students enrolled at the Vista Hills Education Center would be relocated from El Portal School to the site. Vista Independent High School would be designed to accommodate approximately 300 students in independent studies programs (with an average of 60 daily part-time students), and would include a staff of 14 full-time teachers, a principal and two full-time clerical personnel. The Transition Program would serve an estimated enrollment of up to 120 students, nine teachers, 28 aides, two clerical personnel, and one half-time secretary. Vista Independent High School and the Transition Program would be physically separated on the campus and would operate independently of each other. The proposed project would also continue staff development on the Vista Hills site. Staff development would include between nine and 12 teachers on a daily basis. Total onsite daytime student and staff population would be roughly 250 people. The Transition Program would operate between the hours of 8:30 am to 2:30 pm, and Vista Independent High School and staff development activities would occur between 8:00 am and 4:00 pm.		
	Proposed building improvements, site upgrades and installation of the portable units would begin in July 2005. Construction and installation is anticipated to last approximately six months, with project completion scheduled for December 2005. During the construction, students would remain at El Portal School and would relocate to the project site by the second semester, in January 2006.		
2004081085	Reynolds Grading Permit, L14035, Log No. 02-14-047 San Diego County Department of Planning and Land Use --San Diego The project site totals 3.62 acres and proposes the grading of 0.5 acres with a balanced cut and fill operation of 1200 cubic yards with a maximum fill slope ratio of 2:1 and a cut slope ratio of 1.5:1. The project is located on 2 legal lots measuring 0.41 and 2.91 acres. The project proposes the grading for the construction of 2 pads for single-family dwelling units. Water draining onto the site from the north end of Conrad Drive created a wetland that flows in an east-west direction. The wetland has been both altered and filled. The County of San Diego Code Enforcement Division cited the property owner for grading violations. This grading permit is required to remedy the citation.	NOD	
2004101042	Hillsdale Road Drainage Improvements San Diego County --San Diego The proposed project would alleviate localized flooding by replacing the existing 60" x 84" corrugated metal pipe (CMP) under Hillsdale Road with a double 9' x 4' box culvert and widening and realigning the existing downstream channel. 2005062070	Sweetwater Springs Water District Water Rights Petition for Extension of Time Sweetwater Springs Water District --Sonoma The District diverts water from the underflow of the Russian River under a permit that specifies a maximum diversion rate of 3.0 cubic feet per second and maximum annual diversion volume of 1,249 acre feet. Current water supply requirements can be satisfied under these terms. The State Division of Water Rights intends to convert the water rights permit to a license based on reported historic uses of slightly more than 1,100 acre feet per year. The District desires to file a water rights petition for extension of time so that it may have additional time to put the entire 1,249 acre feet per year to beneficial use as the District's housing stock converts to full-time occupancy and vacant lots are built out. To utilize the maximum amount of 1,249 acre feet per year, pumping durations would increase by approximately 10 percent. No other changes or improvements to the supply facilities will occur. This Initial Study examines potential environmental impacts associated with the Division of Water Rights granting the extension.	NOD	
2005062123	McCoy Road @ NF Dibble Creek Tehama County Public Works Red Bluff--Tehama The McCoy Road at the north fork of Dibble Creek bridge replacement project consists of replacing the concrete slab in the north fork of Dibble Creek with a 42' wide bridge with a 40' travelway consisting of two 12 foot lanes and 8 foot shoulders. 2005088127	Phase I North Coast Integrated Regional Water Management Plan Mendocino County --Del Norte, Glenn, Humboldt, Lake, Marin, Mendocino, Modoc, ... The Phase I North Coast IRWM Plan resulted from the approval of Proposition 50, the Water Security, Clean Drinking Water, Coastal and Beach Protection Act of 2002. The Act encourages regional cooperation in water resources planning by providing grant funding for projects identified in a regional plan that are intended to improve regional water supply reliability, water recycling, water conservation, water quality, stormwater capture and management, flood management, recreation and access, wetlands enhancement and creation, and/or habitat protection and restoration. The Phase I North Coast IRWM Plan is an information gathering and regional planning document which identifies needs and opportunities in the region and projects that would qualify for funding under Proposition 50. Adoption of the Phase I North Coast IRWM Plan would not commit participating agencies to complete or fund particular projects listed in the plan, but rather it would make these projects eligible for funding under Proposition 50 and future bonds. 2005088128	Milnes Elementary School Modernization Project Riverbank School District Modesto--Stanislaus The project consists of improvements to existing school facilities including general renovations and repairs. The improvements will all occur upon the existing Milnes Elementary School campus and will involve no expansion of size or use of the facilities. The project site will be closed during the project and approximately 80 students currently attending the Milnes Elementary School will be temporarily housed at California Avenue Elementary School.	NOE	
2005088129	Los Encinas Mobil Home Park Bank Repair Fish and Game Santa Barbara Ventura--Ventura The installation of 115 linear feet of concrete enviro-blocks in between concrete lined banks of an unnamed tributary, to repair an eroded bank. SAA # 1600-2005-0082-R5	NOE	
2005088130	Sacramento City College North Gym Building Modernization Los Rios Community College District Sacramento--Sacramento This project will modernize the North Gym Building at Sacramento City College by making modernization improvements to the interior of the structure. The total assignable square feet (ASF) of the area affected by the construction activities is 28,795. The project will result in a net reduction of 956 assignable square feet of space. Painting of the exterior is also considered part of the project.	NOE	
2005088131	Shaver Lake Western Flank Protection Zone Forestry and Fire Protection, Department of --Fresno This project consists of creation of a modified fuel break along 1.8 miles of the Old Routt Mill Road from the Fresno County Water Treatment Plant to Highway 168. The project will mechanically thin brush and small trees 200' on each side of the road in order to establish a fuel break between Jose Basin and Shaver Lake. The fuel ladder will be removed to 8' in height. The timberaxe masticator will be used to remove brush and trees of less than 8" diameter at breast height. In areas of limited access brush will be hand cut and stacked. The slash will be chipped by the TimberAxe or stacked and burned in places of limited access.	NOE	
2005088132	Grand Bluffs 2 Fuel Mastication Project Forestry and Fire Protection, Department of --Fresno This project will masticate brush on 38 acres of forest land and lift roots of Ceanothus species to prevent resprouting and to ensure treatment longevity. Equipment to be used includes a Bobcat T300 Skid Steer with rubber tracks with a 7 ft. wide Timber Ax masticating head and a Bobcat 341 C series Excavator: specifications: 5800 kilos gross weight, tracks 8' long, 16" wide with street pads, 6'4" total width, 88 h.p., implement 3" wide, 5-tine rake with opposing 4-tine thumb. Following treatment the soil will be covered with a low profile of wood chips and some roots preventing erosion.	NOE

2005088133	Hume Lake Christian Camps Fuels Reduction / Watershed Protection Project Forestry and Fire Protection, Department of --Fresno Remove downed, ladder, and other potentially hazardous fuel loads along the eastern, southern, and western property boundaries (approximately 15 acres). Will augment an existing road traversing the property line and clear a 50 foot area from edge of road (both sides; 100 feet wide). Creating this clear zone will provide a more effective defensible space in case of a wildland fire. No ground disturbing equipment, i.e., bulldozer or excavator, will be used - project will be accomplished by hand crews only.	NOE	
2005088134	Peterson Road Defensible Fuels Profile Project Forestry and Fire Protection, Department of --Fresno Construct a fuel break 200 feet each side of Peterson Road for approximately 2.5 miles. The project will encompass 68 acres. The scope of the project is to remove heavy slash build up on the forest floor, reduce the brush component, and thin out dense understory trees. Overstory trees shall be pruned to a minimum height of 10 feet. A Bobcat 341 C series Excavator and a roadside chipper will be used. Slash will be stacked and burned as allowed. Chipping will occur on those days that burning is not allowed. Chips will be spread to a depth of no more than 4 inches.	NOE	
2005088138	Improvements to Arguello Park in the City of San Carlos San Carlos, City of San Carlos--San Mateo * Trail repair and enhancements, i.e. -bridge repair * Non-native vegetation clearing and replace with native vegetation * Improved access * Improved parking * Improved picnic sites * New irrigation system on athletic field * Interpretive signage for trees, vegetation and geological landmarks * Improved play equipment * Improved lighting * New drainage system * New backstop for the athletic field * Hillside stabilization-Placement of new plantings with native vegetation and jute netting. 2005041101	Rancho Santa Fe New School Draft EIR Rancho Santa Fe School District --San Diego The proposed new school will be located on an approximately 19 acre site with a capacity of 550 students (and attendant employees). The EIR also addresses any environmental impacts associated with construction of the school on a 7-acre or 13-acre site.	EIR	09/22/2005
2004102043	City of Davis Well Capacity Replacement EIR Davis, City of Davis--Yolo The City proposes to construct wells and pumping facilities to obtain approximately 9,250 gallons per minute groundwater supply from the deep aquifer to replace lost groundwater capacity from wells removed from service since 1987, including an increase in historic demand and in anticipation of well capacity removal in the near future. Approximately 4 to 6 deep aquifer wells and a storage tank and booster pump station are required to obtain the necessary capacity to meet current needs. The City has identified eight potential well sites as the highest priority locations to investigate for installation of replacement wells, as well as two backup locations. The 23 priority is to pursue locations in the eastern and southern portions of the City's service area where most of the well capacity has been lost since 1987.	FIN	
2005081051	Upgrade Instrument Approach and Install Engineered Material Arresting System at San Diego International Airport San Diego County Regional Airport Authority San Diego--San Diego Upgrade instrument approach and install an Engineered Material Arresting System (EMAS) for deceleration of aircraft. The purpose of this project is to improve safety for aircraft passengers at San Diego International Airport.	MND	09/07/2005
2005081053	CLWA Groundwater Containment, Treatment, and Restoration Project Castaic Lake Water Agency Santa Clarita--Los Angeles Project consists of modified wells to intercept perchlorate-contaminated groundwater, use of new and existing pipelines to deliver perchlorate-contaminated water to a new treatment plant, several new production wells, and new pipelines associated to deliver treated water and water from new wells.	MND	09/07/2005
2005082034	Stanislaus County Intersection Improvements at Geer Road and Hatch Road Stanislaus County Hughson--Stanislaus The proposed project would result in implementation of a number of intersection improvements at the Geer Road and Hatch Road intersection. The proposed improvements consist of the installation of a traffic signal; the reconfiguration of existing left turn lanes and one right turn lane; the widening of both roads at their intersection; new pavement; traffic signal and intersection lighting, signage, striping, and drainage improvements. The proposed improvements would require right-of-way acquisition from two adjacent private properties.	MND	09/07/2005
2005082036	Ashley Memorial Dog Park Auburn Area Recreation and Park District Auburn--Placer The project is the construction of a dog park within the 54-acre Overlook Park. The project would involve issuance of grading and other required permits by the City of Auburn. The project site is approximately four acres in size; three separate fence	MND	09/08/2005

2005081052	GPA/ZC 05-0420 Bakersfield, City of Bakersfield--Kern General Plan Amendment to change the land use designation to Low Density Residential with a concurrent zone change to Single Family Residential and annexation of the one acre to the City of Bakersfield.	Neg	09/07/2005
2005082033	Ridgetop Estates Shasta County Redding--Shasta The proposed project is a 23 parcel subdivision for single family residences. The project would subdivide an existing 116.95 acre parcel into 23 lots, ranging from 5.0 to 5.7 acres. The project would include a main access road from Pineoaks Road through the property and end in a Fire Emergency Escape Road that would extend to the outer edge of the subdivision. The lots would be developed by the individual property owners. The developer would develop the roads and water availability. Sewage disposal would be handled by individual septic systems. A wildland fuel management plan is also part of the proposed project in order to manage the fuel load on the property. Most of the vegetation below 4 inches in diameter at breast height would be removed.	Neg	09/07/2005
2005082035	Jones Ranch Tentative Map Wheatland, City of Wheatland--Yuba The proposed project requires approval of the following entitlements: adoption of an Initial Study/Negative Declaration; approval of a Large Lot Tentative Subdivision Map to subdivide the site into 2 large lots; approval of a Small Lot Tentative Subdivision Map to subdivide the site into 552 single-family lots and other lots for commercial and public uses; and the adoption of the Development Agreement.	Neg	09/10/2005
2004062031	Southwest Area Projects Santa Rosa, City of Santa Rosa--Sonoma 29 individual development projects that include development of 1,399 housing units (single family detached, single family attached, and multiple family units) and small amounts of retail, office, and light industrial on 168.4 acres. Also proposed is an approved shelter for homeless people combined with a municipal multi-use facility. Rezoning or other similar actions for 11 of the projects.	SIR	09/23/2005

<u>Documents Received on Tuesday, August 09, 2005</u>			
2004102077	Winter 2005 General Plan Amendments and Sierra Valley-Last Chance Annual Review Plumas County Planning Department --Plumas Six privately submitted applications to amend the General Plan - various designations and the 2005 Annual Review of the General Plan.	NOD	
2004122006	Sundance Industrial Park (EIAQ-3776) Placer County Planning Department Roseville, Lincoln--Placer General Plan Amendment amending the Sunset Industrial Area Plan language to allow outdoor storage on up to 50% of parcel area in the Orchard Creek Plan Area of the Sunset Industrial Area Plan.	NOD	
2005061136	Wells 4568-1 and 4569-1 Coachella Valley Water District Cathedral City--Riverside This project includes drilling, casing, testing, and developing two domestic water wells including the installation of 300-horsepower motors, 2,000-gallon-per-minute pumps, back-up electric generators, and other appurtenances required to connect the wells and pumping plants into the domestic water distribution system. Well 4568-1 was actually drilled in 2001, but the pumping plant and other appurtenances were not constructed, and the well is not yet connected to the domestic water system.	NOD	
2005061137	Well No. 6707-1 Coachella Valley Water District La Quinta--Riverside This project includes drilling, casing, testing, and developing a domestic water well including the installation of a 250 horsepower motor, a 2,000-gallon-per-minute pump, back-up electric generator, and other appurtenances required to connect the well and pumping plant into the domestic water distribution system.	NOD	
2005062138	2004-192 Tentative Parcel Map for Mr. & Mrs. William and Linda Gretsinger Calaveras County Planning Department --Calaveras The applicant is requesting approval to divide 20.02 +/- acres into two parcels of 5 and 15.02 +/- acres. The property is zoned RR-5 (Rural Residential - 5 acre minimum parcel size). The site contains a single family residence, barn, arena, well, septic system and other out buildings.	NOD	
2005062139	2005-09 Tentative Parcel Map for Mr. & Mrs. Tom and Barbara Morgan Calaveras County Planning Department --Calaveras The applicant is requesting approval to divide about 23.71 +/- acres into two parcels of 11.22 +/- and 12.49 +/- acres. The property is zoned RA-5 (Residential Agriculture - 5 acre minimum parcel size). Currently a single family residence with well, septic, shop and outbuildings exist, on Parcel 2. Parcel 1 remains vacant land.	NOD

<u>Documents Received on Tuesday, August 09, 2005</u>			
2005071025	<p>Aliso Niguel High School Addition of Portable Classrooms Capistrano Unified School District --Orange</p> <p>The proposed project involves the addition of no more than 10 portable classrooms to San Clemente High School. This addition is necessary to accommodate the existing and anticipated student population. The former Ole Hanson Elementary School campus is part of the high school campus and is referred to as the "Upper Campus". The addition of 10 portables would require a minimum amount of site preparation, consisting of a minor amount of grading and trenching for utilities. The portable classrooms will be added incrementally, as necessary, with the first two portables being placed on the Upper Campus during the summer of 2005. Future additions, if required, will be made based on actual student enrollment.</p>	NOD	
2005071025	<p>Aliso Niguel High School Addition of Portable Classrooms Capistrano Unified School District --Orange</p> <p>The proposed project involves the incremental placement of no more than 13 portable classrooms at the existing Aliso Niguel High School (ANHS). Three new portables would be placed at the southern edge of the campus on an existing staff parking area during the summer of 2005. The remaining portable classrooms, if needed, would be phased in, incrementally following the end of the 2005-2006 school year, in correlation to the projected student population in the coming school years. These additional portables would be placed on an existing basketball court. The three portable classrooms would be necessary to accommodate a natural increase in student population. Due to the placement of the new portables on the parking area, there would be a net loss of 18 staff parking spaces from the campus, for a new total of 45 available staff parking spaces. The proposed project would increase the maximum student capacity on a temporary basis by 390 students to 3,493 students. The student population at ANHS is expected to decline following the 2006-07 school year with the opening of San Juan Hills High School.</p>	NOD	
2005089027	<p>Aggregate Mining, Baldwin Contracting Company Glenn County --Glenn</p> <p>1600 agreement for mining of gravel bars.</p>	NOD	
2005089037	<p>Amendment of Lease Fish & Game #2 --El Dorado</p> <p>Construction, use and maintenance of a floating pier and four mooring buoys on two contiguous littoral parcels.</p>	NOD	
2005089038	<p>Amendment of General Lease - Public Agency Use Sonoma County --Sonoma</p> <p>Continued use and maintenance of seasonal road crossings at four locations along the Russian River.</p>	NOD	
2005089039	<p>Amendment of Lease San Diego Unified Port District San Diego--San Diego</p> <p>Dredge approximately 35,000 cubic yards of sediment in order to facilitate the creation of an engineered cap over the contaminated sediments at the former Campbell Shipyard Waterside Leasehold, which is designed to meet Cleanup and Abatement Order #95-21 requirements issued by the Regional Water Quality</p>	NOD

	approximately 255 acres lie within the sphere of influence of the City of Banning in an unincorporated portion of Riverside County. The project site is generally located south of I-10 and north of Bobcat Road, between Highland Home Road on the west and Sunset Avenue on the east. Access to site is provided via Sunset Avenue.		
2005081055	North Tulare No. 27 Annexation 2005-04 (Cartmill Crossings North) Tulare, City of Tulare--Tulare The project site is flat and is currently used as farmland (corn, cotton). Site is located at the Cartmill interchange adjacent to St. Rt. 99. Project would provide 132 acres of commercial in phases over a ten year period.	NOP	09/08/2005
2005081060	Komar Desert Center La Quinta, City of --Riverside The proposed project is comprised of 26.37 acres and will be constructed in two phases. The first development phase will include, at a maximum, 149,739 square feet commercial uses including a Costco Wholesale Warehouse, a tire center, and food service. In addition, the proposed project includes installation of a connecting water line that will cross through the City of Indio and the La Quinta Evacuation Channel to connect with an existing water line in Jefferson Street. The first phase will also consist of development of a fuel facility, associated parking, and entry driveways including site lighting, sidewalk landscaping, and a bus stop. The second development phase (comprised of two parcels, owned by Komar) will consist of other commercial development and associated parking to be constructed after Costco is open. The maximum square footage allowed on the Komar parcels total 83,700 square feet. The environmental document will assess the potential impacts associated with the maximum square footage permitted under The City of La Quinta General Plan land use designations of Regional Commercial (CR) and Commercial Parking (CP). Using the maximum square footage for both phases, the development potential is approximately 233,439 square feet of building area.	NOP	09/08/2005
2005082040	Humboldt Bay Management Plan Humboldt Bay Harbor --Humboldt The Humboldt Bay Management Plan will provide a framework for the District's management of the lands, waters, and resources under the District's authority within Humboldt Bay.	NOP	09/08/2005
2005082045	Florin-Vineyard Gap Community Plan Sacramento County Sacramento--Sacramento The 3,766 +/- acre Florin-Vineyard Gap Community Plan project, which is included within the boundaries of the existing South Sacramento and Vineyard Community Plan areas, is generally located as follows: south of Elder Creek Road and Sacramento City limits; west of Bradshaw Road, excluding North Vineyard Station Specific Plan area; north of Vintage Park Drive, and the developed neighborhoods of Churchill Downs and Vintage Park; and east of the Union Pacific Railroad tracks, and those developed neighborhoods of Tiogawoods, Florin Town, and Sunrise Florin.	NOP	09/08/2005

In December 2003, the County of Sacramento Board of Supervisors endorsed two draft Community Plan land use maps for the 3,766 +/- acre Florin-Vineyard Gap project area for further analysis and environmental review. The base map consists

	of the Florin-Vineyard Community Plan Citizen's Advisory Committee (CAC) Preferred Land Use Plan, December 4, 2003 (CAC Plan). Supplementing that map are six optional amendments to the CAC Plan that were proposed by the Planning Department (Planning Options A through F) and that result in greater residential density in the plan area (the Planning Options Plan). Anticipated dwelling unit yields are 8,950 units under the CAC Plan, and 12,066 units under the Planning Options Plan.		
	The subject Florin-Vineyard Community Plan project includes amendments to the County General Plan and the South Sacramento and Vineyard Community Plan land use designations to implement either the CAC Plan or the Planning Options Plan for the 3,766 +/- acre project site. The project also includes a Public Facilities Financing Plan, which will identify public facilities and infrastructure improvements required to support the proposed land uses. In addition, the project includes 36 privately-filed Rezone/Subdivision Map applications for development of various properties within the 3,766 +/- acre Florin-Vineyard Gap Community Plan area that are consistent with either the CAC or the Planning Options Plan.		
2005061079	Proposed Elementary School No. 50 San Bernardino City Unified School District San Bernardino--San Bernardino Property/acquisition, construction, and operation of an elementary school; to serve 900 of the area's K-6 school-age children. A portion of Crest Street requires abandonment by the City of Highland. Proposed school to be a 1-story building using standard building construction; modular classrooms, turf playfields, hardcourts, and parking areas are also anticipated.	Neg	09/08/2005
2005081054	Calleguas Creek Permit Coordination Program Ventura County Resource Conservation District Camarillo, Thousand Oaks, Simi Valley, Moorpark--Ventura This project authorizes and funds a coordinated regulatory review and permitting process to assist local landowners in implementing specific conservation practices in the Calleguas Creek watershed. The conservation practices will reduce erosion and associated pollutants and enhance aquatic and terrestrial habitat.	Neg	09/08/2005
2005081056	Ford Grading Permit San Luis Obispo County Paso Robles--San Luis Obispo Proposal by Mike & Debi Ford for a major grading permit to allow for a driveway, building pad for a single family residence with an attached garage, and realignment of a drainage swale which will result in the disturbance of approximately 29,000 square feet of a 2 acre parcel and 1,600 cubic yards of cut and 1,600 cubic yards of fill. The proposed project is within the Agriculture land use category and is located on the south side of Burgandy Lane (at 6250 Burgandy Lane), approximately 0.08 mile east of Vintage Hills, approximately 7 miles east of the city of Paso Robles. The site is in the El Pomar/Estrella planning area.	Neg	09/08/2005

	areas is anticipated to increase as the area continues to develop. DWR is petitioning the SWRCB for an extension of time to make full beneficial use of existing facilities.		
2005088180	Reroute California Riding and Hiking Trail - Amendment (05/06-CD-03) Parks and Recreation, Department of --San Diego This project amends a previous project reviewed under a previous NOE (SCH# 2003098359). The original project, CRSP - Reroute California Riding and Hiking Trail (03/04-CD-03), proposed to reroute a section of the California Riding and Hiking Trail out of low-lying area subject to flooding near Lake Cuyamaca, that also included sensitive plant species, to an adjacent hillside where these impacts could be avoided. The previous project NOE stated that all trail construction work would be done by hand. The trail reroute is now proposed to be completed using a mechanized trail construction machine (Sweco 480). The trail alignment is the same as the original project, and no additional impacts are anticipated from the project.	NOE	
2005088181	Transfer of Coverage to El Dorado County APN 31-211-13 (Irish / Hart) Tahoe Conservancy South Lake Tahoe--El Dorado Project consists of the sale and transfer of 300 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2005088182	Transfer of Coverage to El Dorado County APN 35-295-04 (Neary) Tahoe Conservancy Unincorporated--El Dorado Project consists of the sale and transfer of 32 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2005088183	Transfer of Coverage to El Dorado County APN 27-125-16 (Wenck) Tahoe Conservancy South Lake Tahoe--El Dorado Project consists of the sale and transfer of 433 square feet of hard land coverage rights from Conservancy-owned land to a receiving parcel on which an office building will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2005088184	Shuttle Bus Transit Pavilions, Fremont School for the Deaf General Services, Department of Fremont--Alameda The Department of Education proposes to construct two small transit pavilions within the campus of the Fremont School for the Deaf. The pavilions would each consist of an approximately 50 square foot covered area and associated sidewalks at two centrally-located sites within the campus. Both sites are entirely within developed areas of the campus; no mature trees or other potentially significant resources would be affected by the project. The covered transit pavilions are needed to provide safe, all-weather, accessible shelters for students and staff.	NOE

2005051110	Ash Street / SR 78 Bicycle Path Crossing (City File No. ER 2005-06) Escondido, City of Escondido--San Diego Advance Planning Study for the feasibility and design alternatives of a grade-separated bicycle and pedestrian crossing along the Escondido Creek Flood Control Channel at Ash Street / SR 78. Dokken Engineering prepared the study which recommends the development of a paved, 12-foot-wide, approximately 600-foot-long undercrossing to be constructed within the channel similar to the undercrossing at Auto Park Way. The design consists of a double 6' x 6' reinforced concrete box culvert which would support the path for a length of approximately 126 feet, provide for the uninterrupted flow of storm water within the channel, and also allow the trail to pass beneath the Ash Street Bridge. The approaches on both sides of this section of the path would be cut into the channel's concrete-lined southern bank. An 18-inch waterline would need to be relocated. Construction would be accomplished within the existing right-of-way and the design would allow for the ultimate widening of the Ash Street Bridge in the future.	NOD	
2005061069	Groin Rehabilitation Project at Seal Beach Pier Seal Beach, City of Seal Beach--Orange Repair the existing Seal Beach Groin by installing new 8-inch wide by 3 feet long sheet piles adjacent to the existing sheet piles along the outer 252 feet of the groin. On the west (upcoast side) of the groin, new sheets would be installed at the damaged piles (45 feet of pile). Only the last 350 feet of cap would be replaced while the remaining cap would be repaired.	NOD

1999071107	Speizer Conditional Use Permit ED 04-415 San Luis Obispo County San Luis Obispo--San Luis Obispo Request by Terry Speizer for a Conditional Use Permit to allow an agricultural accessory building and constructed wetlands (winery processing wastewater facility). This CUP would amend the previously approved permit (D970262D) approved in 1999, a 62.92-acre parcel. The proposed project is within the Agriculture land use category and is located at 7527 Orcutt Road, approximately 1,300 feet north of Tiffany Ranch Road and approximately 3.5 miles north of the City of Arroyo Grande. The site is in the San Luis Bay (Inland) planning area.	Neg	09/12/2005
2004121042	McSwain Primary School McSwain Union Elementary School District Merced--Merced The primary school would be designed to accommodate 500 grades K-3 students on a traditional schedule and would include classrooms, faculty work areas, administrative offices, multi-purpose facilities, athletic/recreation areas, and a parking lot. Portions of the school grounds would be lighted for security and recreational purposes and would be available for community use during non-school hours.	Neg	09/12/2005
2005081076	Comstock Homes Development Moorpark, City of Moorpark--Ventura Construction of 56 homes (Single-Family) with access on Park Lane, and preservation of Birkenshaw House for public use, all on 8.84 acres of land at 251 Moorpark Avenue, Moorpark, California.	Neg	09/12/2005
2005081078	Maintenance and Operations Facility Coronado Unified School District Coronado--San Diego The Maintenance and Operations Facility would total approximately 5,355 square feet of building area on approximately one acre of the 11.5-acre Silver Strand Elementary School campus.	Neg	09/12/2005
2005081079	B Street Extension and Middle School Bike Path Fillmore, City of Fillmore--Ventura Currently, B Street consists of two discontinuous segments, one north of Third Street and one south of Telegraph Road. The proposed project would link these two segments, which would improve traffic circulation in the vicinity of the Fillmore Middle School, a major trip generator. In addition, Second Street would be extended from its present terminus approximately 300 feet to intersect B Street. Currently, students (walking and bicycling) to Fillmore Middle School follow a bike path along the north side of Telegraph Road, cross the railroad tracks at/near B Street and follow an abandoned rail spur to school. The proposed project would improve student safety by extending the existing bike path and providing a formal railroad crossing with flashing beacons, which would reduce crossing of the railroad tracks by students at several locations, none of which have safely beacons. 2002051147	Cimarron Valley Estates Riverside County --Riverside The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 6-2003-081 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Mr. Mike Freeman, of KB Home Coastal, Inc., 26201 Ynez Road, Suite 104, Temecula, CA, Phone (951) 587-3357. For Tentative Tract Map 30142, 31042-1, and 3014-2, the Operator is proposing to grade and develop approximately 166 acres into a residential development of 512 lots and supporting infrastructure. To develop the 512 lots the Operator proposes to permanently impact 0.62 acres of southern willow habitat.	NOD	
2003071177	General Plan Amendment No. 668/Change of Zone Case No. 6809/Specific Plan No. 333 Riverside County Planning Department Lake Elsinore--Riverside The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2004-0093 pursuant to Section 1602 of the Fish and Game Code to the project applicant, the Renaissance Ranch, LLC, represented by Mr. Dave Schaffer, 201 East Sand Pointe Avenue, Suite 370, City of Santa Ana, State of California, 92707, Phone (714) 751-1342. The applicant is proposing to grade and develop approximately 158 acres into a residential development of 392 lots and supporting infrastructure. The project will permanently impact 4.64 acres of ephemeral and intermittent jurisdictional waters, including 3.55 acres of mulefat/willow scrub riparian habitat, and 0.17 acres of wetland habitat. Temporary impacts are limited to 0.25 acres. Total project impacts shall not exceed 4.89 acres of jurisdictional areas.	NOD	
2003101135	1 Carter Avenue Project Sierra Madre, City of Sierra Madre--Los Angeles The 1 Carter Avenue project is a 32.07-acre development as proposed by Tentative Tract Map 54016. This plan proposes the development of 29 single-family residential lots on 32.07-acres of the 63-acre site. The remaining property in the project site (30.93 acres) are proposed to be restricted use or open space land, with 3.93-acres preserved as open space through a deed restricted open space. The plan includes a rezone in the canyon area of approximately 11 acres, and provision of a public pedestrian access to an overlook area maintained by the homeowners association, as well as the roads and infrastructure necessary to serve the project site. The plan also provides for the retention and adaptive reuse of the Macomber Cabin, the Carter Barn, the Willis Residence, and the Carter-era arroyo stone entry monuments.	NOD	
2004101014	City of Ventura 2005 General Plan Draft EIR San Buenaventura, City of Ventura--Ventura The 2005 Ventura General Plan is an update to the San Buenaventura Comprehensive Plan that has served as the blueprint for development in the City of Ventura since 1989. The 2005 General Plan, which comprises an infill only strategy, updates each of the 1989 Comprehensive Plan elements, other than the Housing Element (an update of which was approved in 2004) with policies and action items that reflect the current needs and preferences of the community. The land use map will also be updated including a simplification of the number of land use categories from over 30 to 9 land use categories.	NOD

2005081090	Temecula Lane, PA 04-0490 through 0492 and PA 04-0496 Temecula, City of Temecula--Riverside The proposed project is the site development and construction of 428 residential units on 36.19 acres of a 47.72 acre site. The remaining acreage is located within the channel area for Temecula Creek and will not be developed as part of this project. The project includes 96 single-family units on 15.14 acres, and 96 triplex units (in 32 buildings) and 236 fourplex units (in 59 buildings) on 21.05-acres. The lots sizes for the single family detached product will range from 4,000 to 9,000 square feet. The density for the overall project is 11.83 dwelling units per acre.	Neg	09/13/2005

<u>Documents Received on Monday, August 15, 2005</u>			
	Within the project, the density ranges from 6.3 units per acre for the single family detached product to 17 units per acre for the fourplex units. The proposed project will be accessed via a gated entrance/exit on Temecula Lane and two gated entrances/exits on Loma Linda Road. The project will require the import of approximately 260,000 cubic yards of fill material to elevate the developable portions of the project out of the 100-year floodplain. This material would be obtained from other sites with excess clean soil within approximately eleven miles of the site.		
2005081091	Proposed Tentative Tract TT-05-064 (17692) Victorville, City of Victorville--San Bernardino To allow for the development of a 35-lot single family residential subdivision on 9.94 gross acres.	Neg	09/13/2005
2005081092	Nahabedian Section 24 Project Division of Oil, Gas, and Geothermal Resources --Kern Proposes to build up to 5 drilling pads and drill, test and possibly produce up to 4 exploratory oil and gas wells on each pad.	Neg	09/13/2005
2005082056	Freshwater Marsh Mitigation of the Butte 70/149/99/191 Highway Improvement Project Butte County Association of Governments Oroville--Butte The purpose of the Freshwater Marsh Mitigation of the Butte 70/149/99/191 Highway Improvement Project is to meet the mitigation requirements associated with the upgrading of State Route 149 to a four-lane expressway and construction of interchanges at the existing State Route 70/149 and State Route 99/149 intersections in Butte County, California. To offset the highway improvement project impacts to existing freshwater marsh and mixed riparian habitat, the proposed mitigation project will preserve, enhance, create, restore, and protect for perpetuity a sufficient number of acres as set forth in the issuance of Permit #199700165 through the United States Army Corps of Engineers (USACE) in compliance with the National Environmental Policy Act (NEPA) and Section 404 of the Clean Water Act.	Neg	09/13/2005
2005082057	PA-0500424, Lange Twins Winery Use Permit San Joaquin County Community Development Department --San Joaquin Construct a 40,000 ton large winery to be built out over 20 years in 7 phases. Tank capacity to be 15.7 million gallons. Nine buildings to have a total of 118,283 square feet in area.	Neg	09/13/2005
2005082058	TPM 2005-0011; Ben and Regina Wong Tentative Parcel Map Yuba County Wheatland--Yuba Tentative Parcel Map No. TPM 2005-0011 (Wong): split one 20.0 +/- acre parcel into two residential lots (Parcel 1 10.0 +/- acres. Parcel 2 - 10.0 +/- acres). The project site currently has a single-family residence on it with an existing septic system and water well. There is an existing gravel driveway that will serve as access to proposed Parcel 1 though proposed Parcel 2. The site is located at 3706 Spenceville Road, in the Camp Far West area, which is east of the City of Wheatland.	Neg	09/13/2005

2004072110	Hitachi Campus and Transit Village Project San Jose, City of San Jose--Santa Clara (1) Adoption of an ordinance rezoning from Industrial Park to Planned Development to allow a mixed-use project consisting of up to 2,930 residential units and approximately 460,000 square feet of commercial space, and consolidation and relocation of 3,600,000 existing square feet of industrial space; (2) adoption of an ordinance authorizing execution of a development agreement between Hitachi and the City of San Jose.	NOD	
2004092135	State Route 4 (East) Widening Project: Loveridge Road to State Route 160 Caltrans #4 Pittsburg, Antioch--Contra Costa The State Route 4 (East) Widening Project would widen SR 4 from its current four lanes to an eight-lane facility providing three mixed-flow and one High Occupancy Vehicle (HOV) lane in each direction. The project limits would extend from approximately 1.33 kilometers (km) west of the Loveridge Road Interchange to approximately 1.24 km east of the Hillcrest Avenue Interchange and would conform to improvements currently being constructed under the Route 4 / Railroad Avenue Interchange Project (by others) at the west end and under the proposed SR 4 Bypass Project (by others) to the east. Widening SR 4 under the Build Alternative would require reconstruction of interchanges within the project limits and would include the addition of auxillary lanes between interchanges to facilitate on and off traffic movements.	NOD	
2004101073	Rose Bowl Stadium Renovation Project Pasadena, City of Pasadena--Los Angeles Renovations of the existing Rose Bowl Stadium are proposed to add approximately 816,000 square feet of new space to allow use by a NFL team as well as to bring building systems up to current Code requirements. The project would reduce the Rose Bowl's existing seating capacity from 92,500 to a capacity up to 65,000 for regular football season events, and approximately 75,000 or more for special events, including, but not limited to, the UCLA versus USC game, the Super Bowl, and the collegiate Rose Bowl Game. Upon completion of the project, seating in the Rose Bowl would include general seating, club seating, and luxury suite seating. Different levels of amenities would be provided for each type of seating. A club seating section of up to 15,000 seats would be located along the west sideline, with direct access to a club lounge. Approximately 3,000 luxury suite seats would be accommodated in three suite levels above the seating bowl. A Hall of Fame museum, which would include a team store and media facilities, may be proposed at the south end of the stadium. With implementation of the project, the maximum number of displacement events (attendance exceeding 20,000) would increase from 12 to a maximum of 25 per	NOD

2005088213	Non-Native Bullfrog Removal Parks and Recreation, Department of --Sonoma Remove non-native bullfrogs from Ledson Marsh at Annadel State Park. Ledson Marsh has typically supported a significant population of the federally listed red legged frog. Recent surveys show a dramatic decrease in the number of red legged frogs and increase in the number of non-native bullfrogs. A qualified red legged frog biologist will be responsible for removal of the bullfrogs to avoid misidentification of the frogs to be removed. Project supports natural resource management.	NOE	
2005089047	Christa McAuliffe Middle School 2005 Portable Project Lodi Unified School District Stockton--San Joaquin The addition of three portable classrooms on the existing site to allow for the continuing growth of students in seventh and eighth grade.	NOE
